Is Orphan

NO

Parents Details

Father Name / Occupation

SANJAY KUMAR /

Mother Name / Occupation

NAMITA CHOUDHARY /

Address Details

Correspondence Address (For Communication)

B-201, GOPALAN AQUA, NEAR HOPEFARM JUNCTION, WHITEFIELD BENGALURU 560066 BENGALURU KARNATAKA INDIA

Permanent Address

B-201, GOPALAN AQUA, NEAR HOPEFARM JUNCTION, WHITEFIELD BENGALURU 560066 BENGALURU KARNATAKA INDIA

Statement of Purpose *

I am a BTech CSE graduate (2025) from IIIT Dharwad driven by the ambition of building tech-led products that solve real world problems at scale in India. During my UG journey, I developed a strong foundation in core CS and AI and gained depth through hands-on projects and internships. My technical skills give me the ability to build, but over time I have realised that scaling products requires business judgement, market understanding, strategic thinking and leadership. An MBA from FMS Delhi appeals to me because of its focus on managerial fundamentals and the opportunity to learn from peers with diverse experience. I am particularly drawn to FMS’ reputation for nurturing leaders who combine analytical skill with practicality and execution. In the long run, I aim to lead and eventually build tech-driven ventures in India, bridging strong engineering with thoughtful business education, and FMS Delhi offers the right environment for that.

Experience Details

Associate Software Engineer (Jun. 2025 – Present) MathCo (TheMathCompany) Bangalore, KA • Developing NucliOS, an AI insights tool for Fortune 500 clients. • Created an ERD Agent that allows users to quickly prototype creation of ERDs on a canvas for quick prototyping. • Built 6 data connectors: Databricks, Snowflake, Azure Blob, FS, PostgreSQL, MSSQL.

Extra Curricular Activity

Activities and societies: Vice President @ Iridescence Club (Photography/Videography) Core Team Member @ Quantum Computing Club 1st year CSE Cricket Team - Silver Medalist Annual Sports Day 2022 4th year CSE Cricket Team - Gold Medalist Annual Sports Day 2024 Part of Cricket Team for Inter-IIIT 2023, 2024 Took part in the Event Clubs for organizing almost all festive events on campus Took part in cultural events - IIIT Habba, Sangeet Nights

List of Academic Honours, Prizes, Scholarship and Other Details

Research Publication: Enhancing Intrusion Detection Systems through Federated Learning and Gated Recurrent Units IEEE Conference on Engineering Informatics 2024 · Nov 11, 2024 Abstract: SCADA systems play a crucial role in monitoring critical infrastructure like power grids, pipelines, and transport systems. However, their interconnected nature makes them vulnerable to cyber threats. Recent research highlights the effectiveness of Intrusion Detection Systems (IDS) in mitigating such attacks. This study proposes a novel Federated-Gated Recurrent Unit (FGRU) approach for cyber-attack detection in industrial control systems (ICS). By leveraging federated learning, GRU models are trained locally on IoT devices, preserving data privacy while improving global threat detection. The method is validated on real-world gas pipeline data, demonstrating its practical applicability in industrial cybersecurity.
