Verbal Ability and Reading Comprehension

DPP: 6

Para-jumbles 1- Approach to Para-jumbles and Para-jumble MCQs

Q1 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully. Choose the correct arrangement from the given sentences

1. Scientific studies seemed to show it worked.
2. In one study, a group of sleeping men heard a recorded list of Chinese words and their English translations; the next day, they scored significantly better on a comprehension test than a control group.
3. Although it was never employed for mass indoctrination in the real world, it came to be widely used as a tool for teaching new skills or changing unwanted behaviour.
4. In another study, 20 boys with a nail-biting habit were played the phrase 'my fingernails taste terribly bitter' 300 times a night for 54 nights; by the end of the trial, 40 per cent had reportedly overcome their vice.

(A) 3214 (B) 1324
(C) 3124 (D) 1234

Q2 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully. Choose the correct arrangement from the given sentences

1. Mathematics has its own language, and the extent to which we should trust mathematics depends on how we interpret these words, especially when applied to physical reality.
2. Some people believe that confronting problem gamblers with the 'reality' of mathematics – a kind of mathematical counselling, often called 'facing the odds' – can help them overcome it.
3. But we also trust our senses, as well as the patterns we discern from our experiences and the words we use to communicate with one another.
4. After all, since our earliest school days, many of us have learned to trust mathematics as the provider of necessary and logical truths.

(A) 2143 (B) 2431
(C) 4123 (D) 1324

Q3 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully. Choose the correct arrangement from the given sentences

[Android App](#)
[iOS App](#)
[PW Website](#)

1. But there is uncertainty about the outcome, with the EU and the IMF at loggerheads over the health of the Greek economy and Athens unwilling to adopt a single euro more of austerity than what was agreed.
2. To cross that hurdle, the Greek government has to satisfy the demands of both the creditors of the eurozone and the IMF.
3. Athens has to repay a loan instalment by July in order to avail of the next part of the rescue funds under the terms of the 2015 deal.
4. The future of Greece's €86 billion bailout — the third since the 2010 debt crisis — hangs in the balance in the absence of crucial backing from the International Monetary Fund (IMF), and with three European Union (EU) member states going to polls this year.

(A) 4123 (B) 3412
(C) 3142 (D) 4321

Q4 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully. Choose the correct arrangement from the given sentences

1. One short work of Aristotle's that managed to survive the centuries is called the *Poetics*.
2. In spite of the title, it is about much more than poetry in the modern sense of the word.
3. Thus the *Poetics* is really a guide for storytelling of every sort.
4. In ancient Greece, all kinds of literature were written in verse, from epic tales and tragic drama to obscene comedies.

(A) 1342 (B) 1243
(C) 1234 (D) 2134

Q5 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully. Choose the correct arrangement from the given sentences

- (1) Some argue that the sheer volume of information available at our fingertips can be overwhelming.
- (2) Due to the endless stream of data, many people find it increasingly difficult to focus and process information effectively.
- (3) While the internet has democratized access to information, the challenge now lies in sifting through the noise to find meaningful content.
- (4) As a result, critical thinking and information literacy have become essential skills in the modern world.

(A) 3124 (B) 2143
(C) 3142 (D) 3214

Q6 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully. Choose the correct arrangement from the given sentences

1. Nanostructured materials are being pursued to greatly improve hydrogen membrane and storage materials and the catalysts needed to realise fuel cells for alternative transportation technologies at reduced cost.
2. Various Nano science-based options are being pursued to convert waste heat in computers, automobiles, homes, power plants, to usable electrical power.
3. One new lithium-ion battery type uses a common, nontoxic virus in an environmentally benign production process.
4. Researchers are also working to develop a safe, lightweight hydrogen fuel tank.

(A) 2431 (B) 2143
(C) 3124 (D) 3142

Q7 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully. Choose the correct arrangement from the given sentences

1. To say that witches are universal doesn't mean belief in them has been recorded in all cultures, or that, where recorded, widespread public accusations, witch-hunts, or moral panics ensue.
2. Whereas recent accusations of satanism in the West, including Pizzagate, evidently do reveal these features, witchcraft in non-Western societies often does not.
3. For instance, the Hopi people of Arizona never openly accused people of being witches, for fear of retribution.
4. Instead, they believed the evildoers would be punished in the afterlife.

(A) 1342 (B) 1234
(C) 1423 (D) 1243

Q8 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully. Choose the correct arrangement from the given sentences

1. However, in the 21st century, modern architecture has reached an impasse.
2. This problem, according to many of its critics, is that the style is *placeless*.
3. These buildings could be anywhere; they fail to engage with what is around them.
4. This argument is not always accurate – most countries have had their own regional or intensely local versions – but, as a broad point against modern architecture, it is a convincing criticism

(A) 2143 (B) 1243
(C) 2341 (D) 3124

Q9 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully. Choose the correct arrangement from the given sentences

1. In 2018, the leading scientific journal *Nature Communications* surveyed the risks in the Mediterranean area until the year 2100.
2. Other institutions followed suit, most recently the International Council on Monuments and Sites, in declaring a climate and ecological emergency.
3. The first city on their list to be affected was Venice, subject to increasingly frequent saltwater flooding.
4. The alarm was first sounded in 2005, when the World Heritage Committee published a warning to all member states to 'seriously consider the potential impacts of climate change ... and to take early action in response'.

(A) 4123 (B) 1324
(C) 1342 (D) 4213

Q10 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully. Choose the correct arrangement from the given sentences

1. In any event, much of what we now regard as ancient is in fact the product of restoration: medieval-looking Bruges, for instance, is largely a 19th-century creation.
2. In terms of concrete measures, what are our options? The most obvious is to accept that historic heritage has never been stable but is always in flux.
3. The notion that we can preserve objects, buildings and landscapes in their 'pristine' shape is an illusion.

4. Adapting a site to climate change will simply be the next chapter in its biography.

(A) 2143 (B) 2413
(C) 2314 (D) 2341

Q11 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully. Choose the correct arrangement from the given sentences

1. Throughout the wider wellness and spirituality subcultures of social media, 'manifesting' – the art, science and magic of attracting positive energy into your life through internal focus and meditation, and harnessing that energy to achieve material results – is part and parcel of a well-regulated spiritual and personal life.
2. It's not just TikTok.
3. TikTok influencers and wellness gurus regularly encourage their followers to focus, Law of Attraction-style, on their desired life goals, in order to bring them about in reality.
4. It's as ubiquitous as yoga or meditation might have been a decade ago.

(A) 3214 (B) 2341
(C) 2431 (D) 2134

Q12 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully. Choose the correct arrangement from the given sentences

1. Perhaps he felt a *bukimi* shiver along his spine when he found out he'd been duped by a doll.
2. But all I feel on being reunited with my dolls is tenderness.

3. When I first brought Tom home to Madras in the summer of 1983, a delivery man, spying him from the front door, thought he was a real baby.
4. Even the sad dolly legs and arms that have been loosened from their rubber sockets after being exposed to years of fierce humidity, the decapitated Kens, faces coated with mysterious white dust that no amount of scrubbing can wash off.

(A) 3214 (B) 3124
(C) 3412 (D) 3241

Q13 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully. Choose the correct arrangement from the given sentences

1. I had known Annie for only a few years of my adult life, but I had known Trevor since I was 17 years old.
2. And we grew closer the following year as we spent more and more time with each other – I remember watching the infamous police car chase of OJ Simpson from the couch in Trevor's family room.
3. That was also around the time when I read Kurt Vonnegut's novel *Slaughterhouse-Five, or, The Children's Crusade: A Duty-Dance with Death* (1969).
4. We got to know each other at the end of 1993, right around the time the European Union was established and Toni Morrison won the Nobel Prize in Literature.

(A) 1243 (B) 2134
(C) 1234 (D) 1423

Q14 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

Choose the correct arrangement from the given sentences

1. The sensitive young girl watched her father realise – she literally saw it happen – that, indeed, she was not a son.
2. She registered the change of expression in his eyes and interpreted it as rejection and contempt.
3. For a time, both were happy, before a singular moment when everything changed.
4. From that moment, she not only hated being a girl, she despised the characteristics within herself that she identified as feminine, and couldn't stand women in general.

(A) 3124 (B) 2134
(C) 3142 (D) 2143

Q15 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully. Choose the correct arrangement from the given sentences

1. Revenge can indeed be the opposite of justice, a product of utter despair, a kind of empty and final gesture toward restoring one's shattered self-respect.
2. The scholars Susan Jacoby, Martha Minow and Sarat have all written important work trying to better understand and clarify the connection between revenge and justice.
3. They all would concede that there is an understanding that 'revenge is a kind of wild justice,' as Francis Bacon wrote in his essay 'Of Revenge' (1625).
4. Most modern systems of law claim authority by distinguishing themselves from revenge, though conceding that feelings for revenge cannot be eradicated.

(A) 1243 (B) 1342
(C) 1234 (D) 1324

Q16 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. I will discuss strategies for determining the amount that needs to be saved, which resources to use, and financial details of asset allocation.
2. A variety of credible resources and platforms were analyzed to compile the most accurate and up-to-date information on the topic of investing for retirement.
3. The complex process requires understanding, and specific steps are developed to ensure you are on track with your savings.
4. Retirement funding consists of using a variety of resources to ensure income is diversified.
5. This presentation will educate about the strategies that can be taken to start investing for retirement to guarantee a stable future.

(A) 43152 (B) 31254
(C) 24351 (D) 35241

Q17 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. Different strategies have been identified by different agencies all aimed at reducing poverty.

2. This view may disqualify the view based on a distribution strategy, which suggests that reducing poverty can be achieved by decreasing per capita growth.

3. Some analysts argue that more assets and income equity from the beginning can enhance the rate of growth.

4. One central strategy that is often considered is to reduce poverty by accelerating economic growth.

5. For the effective achievement of these targets, different policies are required.

(A) 15432

(B) 45231

(C) 53124

(D) 45132

Q18 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. Self-acceptance refers to promoting the positive concept of self, which is considered to contribute to relationships among people.

2. Increased self-acceptance makes people more confident and empowered while also encouraging them to take responsibility and engage in continuous self-development.

3. Self-awareness is an integral part of human relations because it affects how people see their role in the group and their behaviors.

4. Developing self-awareness also results in increased emotional intelligence, which is pivotal to good interpersonal relationships.

5. These outcomes can make a powerful impact on a person's perception of work and their role in an organization.

(A) 42351

(B) 25314

(C) 34125

(D) 15243

Q19 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. The primary concern of personality is one of the most noticeable parts of human's psychological life.

2. Several definitions have come up to describe personality psychology.

3. Most of these have mainly focused on the mental state of individuals.

4. The noticeable parts of an individual form its main elements.

5. Personality psychology is usually defined in terms of mental system of an individual.

(A) 51423

(B) 25413

(C) 32541

(D) 45123

Q20 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. According to the researchers, the presence of a figure empowered to give orders to other participants in the process had a tremendous impact on the latter.

2. The cruel experiment conducted by Stanley Milgram is an explicit example of the initiatives which are opposed to all possible ethical considerations.

3. They tend to do whatever their leader says without attempting to disobey the instructions regardless of how unethical they were.

4. Nevertheless, it provided invaluable results allowing us to consider the nature of human obedience and the role of authority in the matter in detail.

(A) 1342

(B) 4321

(C) 3214

(D) 2413

Q21 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. It has a strong reputation for providing excellent customer service.
2. The Company has been in business for over 20 years.
3. Many of its customers have been loyal for a long time.
4. The company is known for its high-quality products.
5. It has a dedicated team of employees who are committed to satisfying customer needs.

(A) 43215 (B) 31254
(C) 52314 (D) 21453

Q22 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. Gantt charts are extremely convenient for keeping track of all vital activities related to work on a project.
2. Gantt charts graphically depict every task, managers have an opportunity to assess how much resources they will allocate to each one.
3. Gantt charts show the precedence and order of tasks that have to be completed by their respective deadlines.
4. Gantt charts communicate a project timeline not only to the main individuals in charge of a certain project but to every stakeholder involved in it.

(A) 1432 (B) 3421
(C) 4123 (D) 3124

Q23 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. Digitization has revolutionized the way conventional activities are undertaken within an organization.
2. Agile methodology is used by organizations to undertake a project and is based on organizing processes into smaller, self-organized, autonomous, and team-based sprints.
3. A prominent concept that has come with the digitization of organizational processes is the induction of agile methodologies in Auditing.
4. Organizations are required to undertake an audit of its financial statements and internal audit teams are required to perform regular audits within the organizations.

(A) 3421 (B) 1324
(C) 1432 (D) 2314

Q24 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. The company wants to embark on a migration project in which Tonya's chips hosting would be changed from external to internal hosting.
2. Tonya's chips is a website that deals with the sale of their

products online that was purchased by an independent company.

3. The independent company that did the purchasing does its own internal hosting.
4. Before the sale, the website was externally hosted.
5. This means that the website did not have its own infrastructure in place thus external hosting provided the owners a quick home for their system, where both security and network infrastructure were both already established.

(A) 24531 (B) 41235
(C) 51243 (D) 15243

Q25 Carefully read the statements in the questions below and arrange them in a logical order.

1. Rousseau identifies two types of inequalities: natural and moral.
2. Natural inequalities, such as differences in age, intelligence, capacity for reason, and physical characteristics, are less concerning to Rousseau than moral inequalities.
3. Rousseau's perspective on inequalities challenges the prevailing view that violence and inequalities are an inherent part of human nature, and instead argues that they are the result of societal and political factors.
4. Rousseau argues that violence and inequalities are not inherent to humans, but rather result from

socialization and the improper use of reason.

5. Rousseau believes that moral inequalities, which occur due to consent and convention, are a form of political rule and are preventable.

(A) 25413 (B) 45312
(C) 35142 (D) 41253

Q26 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. Like all futures, these contracts are an arrangement for purchasing a predefined set of securities at a specific point in the future for an agreed-upon price.
2. Interest rate futures are a type of futures contract that uses an interest-bearing instrument as the underlying asset.
3. The underlying assets could range from short-term obligations to 30-year treasury bonds.
4. When the expiration date comes, they can be settled with cash, or with one party taking delivery of the underlying asset.
5. These contracts are also known as financial derivatives.

(A) 25143 (B) 15243
(C) 52314 (D) 24351

Q27 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. Jossiah and Jemima Benson have money, time, strength, and opportunities but they are yet to decide on how to invest or apply this money.
2. Financial plan is a sequential economic action which is supposed to be taken by an individual or business to achieve certain specific investment goals within a given future period.
3. Furthermore, their investment would depend on whether they are risk takers.
4. The application of this fund will depend on certain factors such as their age, lifestyle, investment attitude, to name a few.

(A) 3124
(C) 2413

(B) 2143
(D) 1324

Q28 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. Expensive growth stock is a stock that trades at a higher price relative to its book value, cash flow, and earnings, and dividends are expected to be faster than average growth in the future for efficient markets.
2. In an efficient market within the short and long term, expensive stocks are expected to yield high returns on investment.
3. That is why investors are usually attracted to purchase expensive stocks.
4. On the other hand, cheap stock has a cheap price relative to its book value, cash flow, and earnings, and dividends

are expected to have slower-than-average growth in the future in efficient markets.

(A) 2134
(C) 1423

(B) 3421
(D) 4132

Q29 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. The first of these is the payment history, which makes up 35% of the credit score and shows whether a person pays his obligations on time.
2. The total amount owed is 30% and considers the percentage of credit available to the person currently being used, which is known as credit drawdown.
3. There are three major credit reporting agencies in the United States, namely Experian, Equifax, and Transunion, that report, update, and store consumer credit histories.
4. While there may be differences in the information collected by the three credit bureaus, five main factors are considered when calculating a credit score.
5. The length of the credit history is 15%, while longer credit histories are considered less risky since there is more data to determine the payment history.

(A) 45231
(C) 51243

(B) 24351
(D) 34125

Q30 Carefully read the statements in the questions below and arrange them in a logical order of sequence meaningfully.

1. The average value of transactions in e-commerce has been rising rapidly.

2. E-commerce websites are likely to overtake physical stores in terms of customer traffic in the near future.

3. In response, companies have invested heavily in enhancing their digital infrastructure and supply chains.

4. E-commerce has grown exponentially in the last few years, and the trend is set to continue.

5. The pandemic has only accelerated this shift, as more consumers have started shopping online.

(A) 45132

(B) 32145

Hints & Solutions

Note: scan the QR code to watch video solution

Q1 Text Solution:

The correct order of the para jumble (3-1-2-4) is explained as follows:

1. **Statement 3** (Although it was never employed for mass indoctrination in the real world...): This serves as a broad introduction, explaining how the concept was never used on a large scale but became popular for teaching new skills or changing behavior. It sets the context for what will be discussed in the rest of the passage.
2. **Statement 1** (Scientific studies seemed to show it worked): This statement follows naturally by introducing the idea that scientific studies supported the effectiveness of the technique.
3. **Statement 2** (In one study, a group of sleeping men heard a recorded list...): This sentence elaborates on the evidence mentioned in the previous statement by presenting a specific example of a scientific study that demonstrated the method's success in learning.
4. **Statement 4** (In another study, 20 boys with a nail-biting habit...): This introduces a second study related to behavior change, following the flow of examples to support the claims introduced in earlier sentences.

Video Solution:

Q2 Text Solution:

The correct order of the para jumble (2-4-3-1) can be explained as follows:

1. **Statement 2** (Some people believe that confronting problem gamblers...): This sentence introduces a specific situation (mathematical counselling for problem gamblers), drawing attention to how mathematics can be applied to real-life problems. It sets the stage for a discussion on trust in mathematics.
2. **Statement 4** (After all, since our earliest school days...): This statement builds on the previous one by explaining why people trust mathematics. It reflects a general belief developed through education that mathematics offers logical truths, creating a broader context for why it is trusted.
3. **Statement 3** (But we also trust our senses...): This introduces a contrasting idea, emphasizing that aside from trusting mathematics, people also trust their senses and experiences to understand reality. The word "But" signals a shift in thought, contrasting the reliance on mathematics with reliance on sensory experience.
4. **Statement 1** (Mathematics has its own language...): This wraps up the sequence by deepening the discussion. It highlights that the trust in mathematics is not absolute but depends on how we interpret its language, especially when applied to real-world situations, such as problem gambling.

Q3 Text Solution:

Statement 4: This statement begins the paragraph by stating that the future of Greece's €86 billion bailout, the third since the 2010 debt crisis, hangs in balance.

Statement 3: This statement follows 4 by mentioning a condition that needs to be fulfilled by Athens to avail the next part of the rescue funds.

Statement 2 : "That hurdle" in 2 refers to the condition mentioned in 3.

Statement 1: his statement concludes the paragraph by stating that there is uncertainty in the outcome because the EU and the IMF are at loggerheads over the health of the Greek economy.

Hence statements in order 4321 form a sequence

Video Solution:

Q4 Text Solution:

In this para jumble, the correct order is **1-2-4-3**. Let's break down why this is the correct sequence:

Sentence 1 introduces the Poetics, a short work by Aristotle that has survived over time. This serves as a natural starting point, giving us the subject and its historical importance.

Sentence 2 builds upon Sentence 1 by clarifying what the Poetics is about. It mentions that despite its title, the work covers more than just poetry, broadening its scope.

Sentence 4 gives context to the type of literature discussed in the Poetics by explaining how, in ancient Greece, various forms of literature, including epics and plays, were written in verse. This expands on the statement from Sentence 2, explaining the kinds of literary forms the Poetics would address.

Sentence 3 concludes the sequence by summarizing that the Poetics is essentially a guide for all kinds of storytelling, which is the logical conclusion to the explanation of its scope provided by the previous sentences.

Video Solution:

Q5 Text Solution:

Correct Sequence: 3124

What the question specifically asks:

The question asks you to arrange the jumbled sentences to form a coherent and logical paragraph. The task is to identify the flow of ideas and arguments to present them in the most logical manner.

Rationale for the 'Correct Sequence':

- **Sentence 3** serves as an introductory statement, outlining challenge brought by the democratization of the internet.
- **Sentence 1** discusses the problem of "overwhelming" information, logically continuing from Sentence 3.
- **Sentence 2** provides an impact analysis of the problem highlighting the difficulty in focusing and processing information

effectively. , making it a suitable follow-up to Sentence 1.

- **Sentence 4** concludes by discussing the skills required to navigate the modern world of information, effectively summing up the paragraph.

Video Solution:

Q6 Text Solution:

EXPLANATION

Sentence 3 introduces a lithium-ion battery type that uses an environmentally friendly production process, introducing the topic of nanotechnology in batteries.

Sentence 1 discusses the use of nanostructured materials to improve hydrogen membranes, storage materials, and catalysts for fuel cells, connecting nanotechnology to alternative transportation technologies. It follows sentence 3 since both are related to advancements in energy technologies.

Sentence 4 mentions researchers working on developing safe, lightweight hydrogen fuel tanks, which is related to the use of hydrogen in alternative transportation technologies introduced in sentence 1.

Sentence 2 comes last, discussing how nanoscience-based options are being pursued to convert waste heat into usable electrical power, expanding on the topic of energy conversion introduced in sentence 1.

Video Solution:

Q7 Text Solution:

The correct order of the para jumble (1-2-3-4) can be explained as follows:

Statement 1 (To say that witches are universal doesn't mean belief in them has been recorded in all cultures...): This statement introduces the topic by defining what is meant by the universality of witches. It clarifies that the idea of witches does not necessarily lead to accusations, witch-hunts, or public panics in every culture. It sets up a nuanced perspective on witchcraft across different societies.

Statement 2 (Whereas recent accusations of satanism in the West, including Pizzagate...): This builds on the first statement by contrasting witchcraft in the West (where accusations and public reactions like witch-hunts do occur) with non-Western societies, indicating a difference in how these beliefs manifest.

Statement 3 (For instance, the Hopi people of Arizona never openly accused people of being witches...): This introduces a specific example from a non-Western society (the Hopi people) that supports the previous statement about differences in the handling of witchcraft. It demonstrates that, unlike in Western cultures, open accusations of witchcraft were avoided in Hopi culture.

Statement 4 (Instead, they believed the evildoers would be punished in the afterlife): This follows naturally from the previous statement, explaining the Hopi belief system further by detailing their approach to punishing evildoers. Rather than public accusations or witch-hunts, punishment was believed to occur in the afterlife.

Video Solution:**Q8 Text Solution:**

The correct order of the para jumble (1-2-4-3) can be explained as follows:

Statement 1 (However, in the 21st century, modern architecture has reached an impasse.): This introduces the topic by establishing the central issue—modern architecture is facing a problem in the 21st century. It sets the stage for explaining what this impasse or challenge is.

Statement 2 (This problem, according to many of its critics, is that the style is placeless.): This follows naturally by specifying the problem mentioned in Statement 1. Critics argue that modern architecture lacks a connection to place, i.e., it doesn't reflect its surroundings, creating a sense of "placelessness."

Statement 4 (This argument is not always accurate – most countries have had their own regional or intensely local versions...): This statement provides a nuanced perspective on the criticism by acknowledging that the argument isn't always true, as many countries have developed their own local or regional versions of modern architecture. However, it affirms that as a general critique, it holds weight.

Statement 3 (These buildings could be anywhere; they fail to engage with what is around them.): This statement further elaborates on the criticism. It emphasizes the point that modern buildings often feel like they could belong to any place, failing to interact with their specific environments. This final statement ties back to the central

criticism, reinforcing the idea of "placelessness."

Video Solution:**Q9 Text Solution:**

The correct order of the para jumble (4-2-1-3) can be explained as follows:

Statement 4 (The alarm was first sounded in 2005, when the World Heritage Committee published a warning to all member states...): This statement provides the historical context and initial warning about climate change, which serves as a starting point for the entire narrative. It introduces the first global alarm about the impact of climate change on heritage sites and the need for action.

Statement 2 (Other institutions followed suit, most recently the International Council on Monuments and Sites...): This builds on Statement 4 by showing how other institutions followed the World Heritage Committee's lead, declaring a climate and ecological emergency. This naturally follows the idea that after the initial alarm, more institutions recognized the severity of the situation.

Statement 1 (In 2018, the leading scientific journal Nature Communications surveyed the risks in the Mediterranean area until the year 2100.): Now that the alarm has been raised and institutions have started responding, the passage moves to specific scientific efforts to assess future risks, such as the survey by Nature Communications that examines the Mediterranean area and predicts the impact of climate change until 2100.

Statement 3 (The first city on their list to be affected was Venice...): This follows logically from the preceding statement, providing a

concrete example of the findings from the Nature Communications survey. Venice is identified as the first city to be affected by frequent flooding, tying the broader survey into specific, visible consequences of climate change.

Q10 Text Solution:

The correct order of the para jumble (2-3-1-4) can be explained as follows:

1. **Statement 2** (In terms of concrete measures, what are our options? The most obvious is to accept that historic heritage has never been stable but is always in flux.): This begins the discussion by posing a key question about how we handle historical heritage. It immediately sets up the topic of preserving heritage and introduces the idea that change is inherent to history, making it a logical starting point.
2. **Statement 3** (The notion that we can preserve objects, buildings, and landscapes in their 'pristine' shape is an illusion.): This follows naturally from Statement 2, elaborating on the idea that historical heritage is not static. It challenges the common belief that we can maintain the 'pristine' state of historical sites, reinforcing the argument that constant change is inevitable.
3. **Statement 1** (In any event, much of what we now regard as ancient is in fact the product of restoration: medieval-looking Bruges, for instance, is largely a 19th-century creation.): Now that the idea of

the illusion of preservation has been introduced, Statement 1 provides a concrete example of how much of what we consider "ancient" is, in fact, a result of restoration. The example of Bruges highlights that even so-called ancient sites have undergone significant change, emphasizing that history is often a product of later efforts.

4. **Statement 4** (Adapting a site to climate change will simply be the next chapter in its biography.): This concludes the argument by linking the earlier points to the present and future. It suggests that just as restoration has reshaped history in the past (like Bruges), adapting to climate change will continue this process. The metaphor of the "next chapter in its biography" ties the entire passage together, reinforcing the idea of historical heritage as a dynamic, evolving entity.

Q11 Text Solution:

Explanation:

Statement 3 (Starting sentence)

"TikTok influencers and wellness gurus regularly encourage their followers to focus, Law of Attraction-style, on their desired life goals, in order to bring them about in reality."

This introduces the **main subject** of the passage: *manifesting* and its promotion by TikTok influencers.

Statement 2 (Follow-up to Statement 3)

"It's not just TikTok."

This sentence **expands the scope** beyond TikTok, preparing for a discussion on how

manifesting is widespread.

Statement 1 (Explaining the broader trend)

"Throughout the wider wellness and spirituality subcultures of social media, 'manifesting' – the art, science and magic of attracting positive energy into your life through internal focus and meditation, and harnessing that energy to achieve material results – is part and parcel of a well-regulated spiritual and personal life."

Now that we have established that it's not just TikTok, this sentence **gives a broader perspective** on manifesting across wellness and spirituality circles.

Statement 4 (Concluding with comparison)

"It's as ubiquitous as yoga or meditation might have been a decade ago."

This sentence **wraps up the idea**, comparing the current popularity of manifesting to the past influence of yoga and meditation, emphasizing its widespread nature.

Q12 Text Solution:

The correct order of the para jumble (3-1-2-4) can be explained as follows:

Statement 3 (When I first brought Tom home to Madras in the summer of 1983, a delivery man, spying him from the front door, thought he was a real baby.): This sentence introduces the anecdote of bringing home a doll named Tom, setting up the context for the passage. It establishes the initial event and provides a visual image of someone mistaking the doll for a real baby, making it a natural opening.

Statement 1 (Perhaps he felt a bukimi shiver along his spine when he found out he'd been duped by a doll.): This follows the first statement as a reflection on the delivery man's

reaction upon realizing that what he thought was a baby was actually a doll. The mention of a "bukimi shiver" highlights the eerie or unsettling feeling the man might have experienced, which is a direct continuation of the scene introduced in Statement 3.

Statement 2 (But all I feel on being reunited with my dolls is tenderness.): After mentioning the delivery man's reaction, the author shifts to their own personal feelings, which are in contrast to the unease mentioned earlier. The use of "But" indicates this shift, showing how the author feels tenderness, not discomfort, when reunited with their dolls. This sentence provides the emotional core of the passage.

Statement 4 (Even the sad dolly legs and arms that have been loosened from their rubber sockets after being exposed to years of fierce humidity, the decapitated Kens, faces coated with mysterious white dust that no amount of scrubbing can wash off.): This final sentence elaborates on the state of the author's dolls, describing them in detail and adding to the sense of nostalgia and tenderness. The description of the dolls' worn and damaged state reinforces the author's emotional connection to them, despite their condition.

Video Solution:

Q13 Text Solution:

The correct order of the para jumble (1-4-2-3) can be explained as follows:

Statement 1 (I had known Annie for only a few years of my adult life, but I had known Trevor since I was 17 years old.): This serves as the introductory sentence. It establishes the narrator's relationship with two individuals, Annie and Trevor, but highlights that Trevor

has been a longer and more significant part of their life. This statement sets the stage for the narrative about the friendship with Trevor.

Statement 4 (We got to know each other at the end of 1993, right around the time the European Union was established and Toni Morrison won the Nobel Prize in Literature.): This continues the focus on the narrator's history with Trevor, placing their friendship in the context of a specific time frame—1993—and connects it to significant global events, which adds a layer of historical reference to the personal narrative.

Statement 2 (And we grew closer the following year as we spent more and more time with each other – I remember watching the infamous police car chase of OJ Simpson from the couch in Trevor's family room.): This expands on the timeline, mentioning how the narrator and Trevor grew closer the year after meeting. The reference to watching the OJ Simpson car chase further grounds their growing friendship in a specific historical event, making it a natural continuation of the personal story from Statement 4.

Statement 3 (That was also around the time when I read Kurt Vonnegut's novel Slaughterhouse-Five, or, The Children's Crusade: A Duty-Dance with Death (1969).): This statement refers to the same time period as Statement 2, linking it to the personal experience of reading a significant novel. It wraps up the narrative by providing a cultural or intellectual detail that complements the historical context and personal relationship established earlier.

Video Solution:

Q14 Text Solution:

In this para jumble, the correct order is **3-1-2-4**. Let's analyze why this sequence makes sense:

1. **Sentence 3** starts the narrative by introducing a significant moment in the relationship between the young girl and her father. It sets the stage by indicating that there was a time when both were happy, followed by a pivotal moment that led to a change.
2. **Sentence 1** follows logically from Sentence 3, providing details about the moment that caused the shift. It describes the sensitive girl witnessing her father's realization that she is not a son, emphasizing the emotional weight of this discovery.
3. **Sentence 2** continues from Sentence 1 by explaining the girl's interpretation of her father's change in expression. This sentence reveals her feelings of rejection and contempt, illustrating the emotional impact of the father's realization on her.
4. **Sentence 4** concludes the sequence by detailing the consequences of this moment. It describes how the girl's feelings transformed into a deep-seated hatred for being a girl and a disdain for feminine traits and women in general, highlighting the long-term emotional fallout from that pivotal experience.

Video Solution:

Q15 Text Solution:

In this para jumble, the correct order is **1-2-3-4**. Let's analyze the flow and reasoning behind

this sequence:

Sentence 1 serves as a strong opening statement that defines the complex nature of revenge. It describes how revenge can be perceived as the opposite of justice and portrays it as a desperate act to regain self-respect. This sets the thematic foundation for the discussion on revenge and justice.

Sentence 2 follows by introducing the scholars who have explored the relationship between revenge and justice. This transition builds on the ideas presented in Sentence 1 by indicating that there is scholarly work focused on understanding these concepts, thus expanding the discussion beyond personal feelings to a more academic context.

Sentence 3 continues logically from Sentence 2 by referencing the thoughts of Francis Bacon, who posits that revenge can be viewed as a form of justice. This statement ties back to the initial discussion in Sentence 1, suggesting that even scholars recognize the blurred lines between revenge and justice. It connects the earlier sentiments to historical perspectives on the issue.

Sentence 4 concludes the sequence by addressing modern legal systems and their stance on revenge. It points out that while laws aim to differentiate themselves from revenge, they also acknowledge the persistent human feelings associated with revenge. This ties the entire discussion back to the implications of revenge within the context of justice, reinforcing the complexities introduced in the first sentence.

Video Solution:

Q16 Text Solution:

Explanation for the answer:

In this para jumble, the correct order is **2-4-3-5-1**. Let's analyze the logical flow and reasoning behind this sequence:

1. **Sentence 2** serves as the opening statement, establishing the foundation for the discussion on retirement investing. It mentions that various credible resources and platforms were analyzed to provide accurate and current information, setting a scholarly tone for the presentation.
2. **Sentence 4** follows by introducing the concept of retirement funding. It expands on the idea of using diverse resources to ensure a stable income, building on the foundation established in Sentence 2 regarding the importance of credible information.
3. **Sentence 3** logically connects to Sentence 4 by explaining that the complex process of retirement funding requires understanding and that specific steps must be developed. This sentence implies that there are actionable strategies that follow the principle of using diverse resources for funding.
4. **Sentence 5** continues the progression by detailing the presentation's purpose. It states that the focus will be on educating the audience about strategies for investing in retirement, tying back to the earlier mention of needing specific steps for funding. This gives context to the strategies discussed in the presentation.
5. **Sentence 1** concludes the sequence by summarizing the specific aspects that will be covered in the discussion, including strategies for saving, resources, and asset allocation. This sentence brings closure to the ideas presented,

reiterating the detailed focus of the presentation.

Video Solution:

Q17 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 15432. This sequence is correct because it presents a logical progression of ideas. First sentence establishes that different strategies have been identified for reducing poverty by different agencies. Next, it explains that for the effective achievement of these targets, different policies are required in sentence 5. The fourth statement introduces the idea of a central strategy that is often considered, which is to reduce poverty by accelerating economic growth. The fourth statement presents a counterargument; some analysts argue that more assets and income equity from the beginning can enhance the rate of growth in the third sentence. The second statement concludes that this view may disqualify the view based on a distribution strategy, which suggests that reducing poverty can be achieved by decreasing per capita growth. The sequence is logical as it progresses from the general concept of poverty reduction strategies to the specific strategy of reducing poverty by accelerating economic growth and then compares it with the distribution

strategy, and how it may disqualify the other strategy.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Video Solution:

Q18 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence 34125. This sequence is logical because it explains the process of how self-awareness can lead to increased emotional intelligence and self-acceptance, and ultimately have a positive impact on a person's relationships and perception of work. The third statement introduces the concept of self-awareness and its importance in human relations. The fourth statement explains how developing self-awareness leads to increased emotional intelligence, which is important for good interpersonal relationships. The first statement defines self-acceptance and how it is related to relationships among people. The second statement explains how increased self-acceptance can lead to increased confidence,

empowerment, and self-development. The fifth statement connects the previous concepts to the impact on a person's perception of work and role in an organization and it should be the last one.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Video Solution:

Q19 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 51423. This sequence is correct because it progresses from defining what personality psychology is, to discussing the main focus of the field (the most noticeable parts of human's psychological life), to how those noticeable parts form the main elements of an individual's personality, to various definitions that have been proposed for the field and finally to the fact that most definitions focus on the mental state of individuals. Sentence 5 introduces the topic personality psychology, so it should be the first sentence, sentence 1 carries the same

concept, so it should be the next one. The 4th one talks about its main elements. Sentence 2 says that there are several definitions on personality psychology and 3rd says that most of them focus on the mental state of individuals. Thus, 2 and 3 are connected and 3 follows 2.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Video Solution:

Q20 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 2413. The logical sequence of these statements is in the order of the background of the experiment, the purpose of the experiment, the results of the experiment and the conclusion drawn from the experiment. The second statement gives a brief overview of the Milgram experiment, which is an unethical initiative. The fourth statement explains that despite its unethical nature, the experiment provided invaluable results. Here 'it' represents experiment, so 4

follows 2. The first statement goes on to explain the results in detail, specifically mentioning the significant impact of the figure of authority on the participants. As the 4th one talks about a figure of authority and sentence 1 says that a figure empowered to give orders, shows that they are connected and 1 follows 4. The third statement concludes by emphasizing the extent to which the participants were willing to obey the instructions, regardless of their unethical nature.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Video Solution:

Q21 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The first sentence (2) provides background information about the company, stating how long it has been in business. The next sentence (1) then goes on to mention the company's reputation for providing excellent customer service, which is a result of the company being in business for a long time,

here 'it' represents company, so 1 follows 2. The next sentence (4) highlights the company's focus on high-quality products, which is also a result of being in business for a long time. The following sentence (5) talks about the company's dedicated team of employees who are committed to satisfying customer needs, which is also a result of the company's focus on high-quality products and excellent customer service, therefore 5 follows 4. Finally, sentence (3) talks about the company's loyal customers, which is a result of the company's reputation for providing excellent customer service, high-quality products, and a dedicated team of employees. As it provides a proper closing to the paragraph, it should be the last one. Thus the correct sequence is 21453.

Video Solution:

Q22 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 1432. This sequence is correct because it progresses from explaining the general utility of Gantt charts to the specific ways in which they are useful. Firstly, sentence 1 states that Gantt charts are useful for keeping track of all vital activities related to a project, then sentence four explains how Gantt charts communicate a project timeline to stakeholders and sentence 3 says how it shows the order of tasks that need to be

completed. Finally, sentence 2 explains that Gantt charts graphically depict every task, and this allows managers to assess how much resources they will allocate to each one. This progression of information makes sense because it presents the general usefulness of Gantt charts and then drills down into the specific ways in which they are useful.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Video Solution:

Q23 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 1324. This sequence is correct as it follows a logical progression of the introduction of the concept of impact created by digitalization in the work place sentence 1, followed by its example in the field of financial auditing within organizations in sentence 3. Sentence 2 highlights the reason behind the adoption of Agile methodologies in auditing, which is the need to optimize operations. The final statement in sentence 4 ties everything

together by emphasizing the significance of Agile methodologies using examples. .

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Video Solution:

Q24 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 24531. This sequence is correct because it presents a logical progression of events. The second statement establishes the main subject of the passage, the website Tonya's chips, and the fact that it was purchased by an independent company. The fourth statement provides background information on the current state of the website, that it was externally hosted. The fifth statement explains the implications of this, that the website did not have its own infrastructure in place. The third statement introduces the independent company that purchased the website and the fact that they do their own internal hosting. Finally, the first statement presents the goal of the migration

project, to change the hosting of Tonya's chips from external to internal. This sequence of events is logical and clear.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Video Solution:

Q25 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 41253. This sequence is correct as it provides a clear overview of Rousseau's perspective on inequalities. Statement-4 sets the stage by introducing Rousseau's argument that violence and inequalities are not inherent to humans. Statement-1 then identifies the two types of inequalities that Rousseau discusses. Statement-2 highlights the greater concern Rousseau has for moral inequalities. Statement-5 explains the source of moral inequalities and Rousseau's belief that they are preventable. And, finally, Statement-3 ties the previous statements together by summarizing Rousseau's perspective on

inequalities as a challenge to the prevailing view that they are inherent to human nature.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Video Solution:

Q26 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences. Explanation for the answer:

The correct sequence is 25143. This sequence is logical because it starts with a general definition of interest rate futures, specifically mentioning that they are a type of futures contract with an interest-bearing instrument as the underlying asset. It then goes on to explain that these contracts are also known as financial derivatives and that they are similar to other futures contracts in that they involve purchasing a set of securities at a specific point in the future for an agreed-upon price. Next, it explains how these contracts can be settled at the expiration date, either through cash or delivery of the underlying asset. Finally, it mentions that the underlying assets can range from short-term obligations to 30-

year treasury bonds. This sequence of information provides a clear and logical explanation of what interest rate futures are, how they are similar to other futures contracts, and what the specifics of these contracts are.

Video Solution:

Q27 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 2143. This sequence is logical because it starts with sentence 2 by describing what a financial plan is and its purpose, which is to achieve specific investment goals within a given future period. The next sentence i.e. 1st one mentions Jossiah and Jemima Benson and their current situation of having money, time, strength, and opportunities but not yet deciding how to invest it. The fourth sentence goes into the factors that will affect their decision on how to apply the fund, such as their age, lifestyle and investment attitude. And the third sentence mention how there investment would also depend on their risk taking attitude. This sequence of information provides a clear and logical explanation of what a financial plan is and how it applies to the specific case of Jossiah and Jemima Benson and the factors that will influence their investment decisions.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Video Solution:

Q28 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 1423. This sequence is logical because it starts with sentence 1 by describing what an expensive growth stock is and how it is valued in relation to its book value, cash flow, and earnings. It then sentence 4 contrasts this with a cheap stock, which is valued at a lower price relative to these metrics, and explains how dividends are expected to grow differently for these two types of stocks in efficient markets. The second sentence explains how in efficient markets, expensive stocks are expected to yield high returns on investment. And the third sentence provides context for why investors are attracted to expensive stocks, which is because they expect to earn high returns on investment, providing ending to the paragraph. This sequence of information provides a clear and logical explanation of the

difference between expensive and cheap stocks, how they are valued, and how they are expected to perform in efficient markets and why investors are attracted to expensive stocks.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Video Solution:

Q29 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The correct sequence is 34125. This sequence is correct because it presents a logical progression of ideas. Firstly, sentence 3 establishes that there are three major credit reporting agencies in the United States that report, update, and store consumer credit histories. Next, sentence 4 explains that while there may be differences in the information collected by the three credit bureaus, five main factors are considered when calculating a credit score. The first statement highlights the first factor, which is the payment history, which makes up 35% of the credit score and

shows whether a person pays his obligations on time. The second statement explains the second factor, which is the total amount owed, which is 30% and considers the percentage of credit available to the person currently being used, known as credit drawdown. The fifth statement explains the third factor, which is the length of the credit history, which is 15% and longer credit histories are considered less risky since there is more data to determine the payment history. The sequence is logical as it progresses from introducing the credit reporting agencies, to explaining the factors considered when calculating a credit score, to explaining each of the factors in detail, starting with the most important one, payment history.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.

Video Solution:

Q30 Text Solution:

Essence of the question:

Here five sentences are given which are not in order. We need to arrange them in proper sequence so that a meaningful paragraph can be formed. We shall select an option which provides correct ordering of given sentences.

Explanation for the answer:

The paragraph is discussing the growth of e-commerce and its impact on businesses.

Sentence 4 provides the context for the paragraph and should be the first sentence. Sentence 5 provides a reason for the growth of e-commerce and should follow sentence 4. Sentence 1 supports the idea presented in sentence 5 and should follow it. Sentence 3 provides a response to the growth of e-commerce and should come next. Finally, sentence 2 provides a concluding statement and should be the last sentence. Thus, the correct order is 45132. Hence, option A is correct.

Trap of the Question:

Para-jumbles are often tricky as even a single misplaced statement can make the whole

answer wrong. The trap is often placed in some sentences which seem to possibly take 2 positions. This increases the chances of a faulty selection. Candidates must carefully follow the most logical and contextually coherent chain of thoughts to answer these questions.
